

Direct Technical Services

MTC has a rich inventory of in-house tools developed specifically to meet our customers' needs.

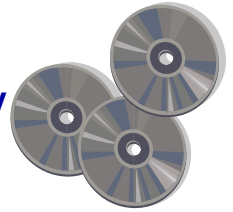

Information Technology

- Systems Administration
- Operations & Maintenance
- Information Assurance
- Network Engineering
- Software Development
- Secure Processing

Engineering Support

- Detailed / Customized Data Analysis
- Systems Engineering
 - Create & Define Requirements
 - Systems Integration
 - Pre & Post Test Analysis
- Data Management
 - Data Collection
 - Data Reduction
 - Quick-look Analysis Package
 - Interactive Analysis
 - Statistical Analysis
 - Disaster Recovery
 - Data Archival & Security
- Logistical Support Services

Decision Analysis

- Decision Performance Evaluation
 - Command and Control
 - Cyber Warfare
 - Decision Timeline Analysis
- Decision Modeling & Simulation
 - Perception Based
 - High Detail
 - Flexible
 - Custom Architecture Modeling
- Risk Mitigation Analysis
 - Homeland / Theatre / Global Scenarios
 - Land / Sea / Air / Space

Research and Development

- Research & Development of Unique
 - Components
 - Systems
- R&D Experiments
 - Design - Build - Test
- Special Studies
 - Problem resolution
 - Design improvement
- Efficient and Clean Energy Solutions
 - Nuclear research
 - Customization
